- ✓ Simple intake and pleasant taste .
- ✓ Sufficient number of probiotic strains.
- ✓ Supplemented with prebiotics.
- ✓ Supplemented with vitamins.

**Probiotics**  
**Prebiotic**  
**Vitamin B complex**

## What is probiotic?

### 1 Do you Know your gut?

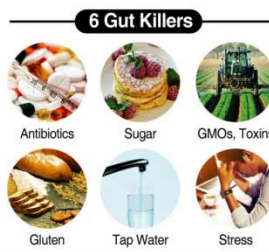

Human gut is colonized by diverse range of bacterial cells including good (80%) and bad bacteria (20%).

### 2 What are gut killers?

Our gut microflora is influenced by external factors such as:

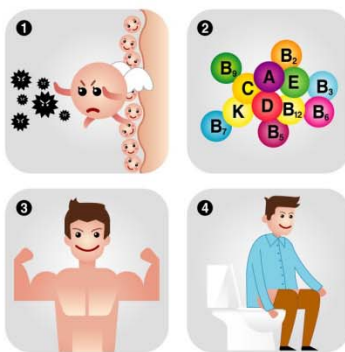

- ✔ Use of antibiotics
- ✔ Intake of sugar
- ✔ Use of GMOs, pesticides, chemicals and toxins
- ✔ Intake of gluten and harmful fats
- ✔ Excess amount of chlorine and fluoride in tap water
- ✔ Stress and unhealthy life style

### 3 What are pro- and pre-biotics?

- ✔ Probiotics are live microorganisms which help us to digest food and strengthen our immune system, when consumed in adequate amount.
- ✔ Prebiotics are the indigestible carbohydrate food for these friendly microorganisms promoting their growth.

### 4 Why probiotics supplements are needed?

Modulate immune system

- 1 Interferes with the colonization and growth of bad bacteria in gut by leaving little space for them.
- 2 Improves nutrient digestion/absorption.
- 3 Supports natural immune system of the body.
- 4 Supports normal bowel movement and helps IBS, colitis, diarrhea, constipation and stomachaches.

## Benefits of SupraGut

### Selective probiotic strains

SupraGut is a combination of specialized probiotic strains for small and large intestine. SupraGut has enhanced ability to colonize in intestinal tract and responding to rapid environmental changes (Human origin strain;BGN4)

### Scientifically proven and patented strains

#### 1 Effective against IBS :

*Bifidobacterium bifidum* , *Lactobacillus acidophilus* and *Lactobacillus casei*

#### 2 Anti-Rotavirus (Anti-diarrhea effect) :

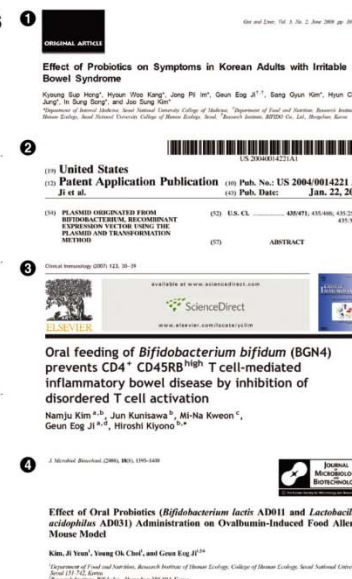

*Bifidobacterium longum*

#### 3 Immune enhancement :

*Bifidobacterium bifidum* and *Lactobacillus acidophilus*

#### 4 Anti-allergic effect :

*Bifidobacterium bifidum* and *Lactobacillus acidophilus*

### Additional supplements

SupraGut is additionally supplemented with prebiotics to enhance the population of probiotic strains, and with vitamins to meet the existing nutritional deficiencies.

### Sufficient dose and easy intake

SupraGut has enough amount of probiotic strains (an input of 6 billion cells). SupraGut sachet is easily tearable for direct intake.
